Tool	Function	Dependencies
python binding	provides library class to the python language	required python environment
swrx	simulates GPS signal and receiver tracking	too specialized
Rinex plot	plots observable combinations	requires perl-tk
mdptool	manipulates MDP data streams	requires UNIX terminal, networking
ash2mdp	converts Ashtech Z(Y)-12 data to MDP	requires UNIX terminal and serial port
rtAshtech	records observations from an Ashtech receiver	requires UNIX terminal and serial port
